BUDGET-FRIENDLY WINTER ACTIVITIES

There is a distinct chill in the air, and winter is officially here. While we're all hunkered down in our homes under piles of blankets, let's take this opportunity to save some money! Your credit union has some great indoor budget-friendly activity ideas to help keep you entertained throughout this cold season:

PUZZLING

There are so many different types of puzzles it is staggering! Of course, there is your standard jigsaw puzzle. For an extra twist of fun, complete your puzzle on a poster board. Pour Mod Podge™ over it to glue it on. Overnight you will have a beautiful new poster to hang up that you can proudly say you made yourself. These types of puzzles aren't your only option. There are apps for crossword puzzles and trivia games you can play with your friends. Thousands of free Sudoku puzzles are available to download online as well as riddles or brain teasers to keep your mind sharp.

READING

This may sound like nothing new but hear us out! Did you know many local libraries have apps where you can check out books and read them digitally from your phone, tablet, or e-reader? You don't have to brave the cold to a physical library to acquire new material. They have lots of digital reads available for download. From non-fiction books, cookbooks, travel books and gardening books to comic books, and manga for the kids! For those with eyesight disabilities, the audiobook options are vast as well. If you don't typically like reading, maybe opt for something new like modern poetry, a favorite celebrity's biography, or a fun magazine.

DIGITAL BUSINESS OPTIONS

Try out some local business options from the comfort of your couch! Many businesses are operational in different virtual ways. Food services have takeout and delivery options. Make a picnic on your living room floor and imagine you are surrounded by warmer times. Many nearby stores have delivery or online shopping options. Even many car dealerships are offering digital car viewings. They use 3D imaging to show you every angle of their vehicles on sale. Here at

Henrico Federal Credit Union, we have a Voice Banking and Digital Banking system that allows members to do so much from home, including cashing checks, secure messaging our team, paying bills, and even applying for loans!

ALTERNATIVE WORKOUTS

Staying at home more often in the cold season can cut out exercise you're used to getting while going about your normal day. Websites like Pinterest have easy-to-follow list format workouts available. The list of workout themes is endless and can fit any lifestyle or room size. On YouTube™, you can find virtually any type of workout class for free! Try something new in your living room like yoga, Pilates, barre, shadow boxing, Zumba, or even karate. Most of these can be found for all age levels, even mommy and me type classes!

ENTERTAINING KIDS

Speaking of kids, here are a few suggestions to stave off the choruses of "I'm bored!" Zoos, aquariums, historical sites, museums, and travel destinations around the world are offering virtual tours. Make it educational and take your kids on a virtual field trip. Set up a box and a few pillows in your living room and virtually ride the coasters at Disney™. On the Henrico Federal Credit Union YouTube™ channel, we offer a few fun virtual branch tours and story times. Another option is to engage in some physical play. Tape streamers or string variously throughout a room or hallway and let the kids pretend they are secret agents trying to get through the lasers without touching them or building a giant pillow fort. For bored teens, help them rearrange their room and take fun before and after pictures. Learn a new skill or craft like origami, piano, or something crazy from a YouTube™ video.

Juan's favorite part about working for the credit union is the opportunity it provides to help improve people's lives.
